主要化工产业发展现状

Development Status Of Major Industries

全市共有规模以上化工行业企业**77**户

There are 77 chemical industry enterprises in Meishan.

2017年实现工业总产值**320**亿元

The industry generated a total output value of 32 billion yuan in 2017.

眉山市支柱产业

Becoming a true pillar for the local economy.

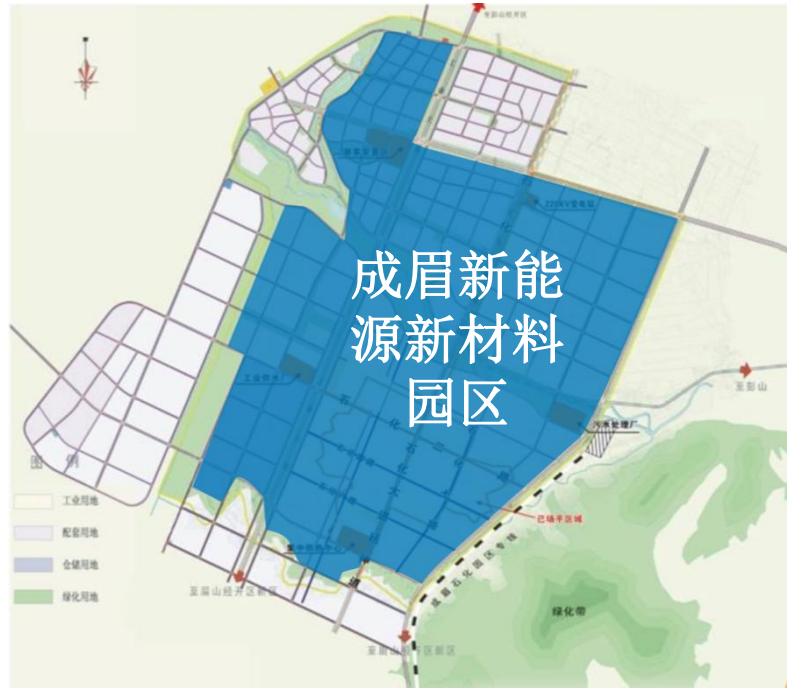

眉山主要化工产业分布园区

MeiShan Main Chemical Industry Distribution Park

金象化工产业园区

Jinxiang Chemical Industrial Park

成眉新能源新材料园区

Chengdu-Meishan New Energy and New Materials Park.

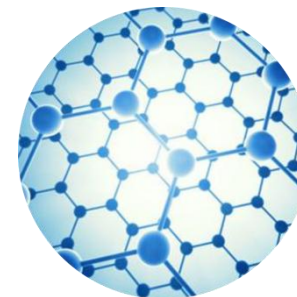

金象化工产业园区

Jinxiang Chemical Industrial Park

成立于2010年2月
Founded in February 2010

地处眉山市东坡区，规划面积20平方公里
Located in the Dongpo District of Meishan City, it has a planned area of 20 square kilometers.

以非金属新材料及制品、精细化工为主导产业。
The park is dominated by non-metallic new materials, products and fine chemicals.

The park is dominated by non-metallic new materials, products and fine chemicals. The park has been awarded the titles of Sichuan's Pilot Park for Circular Economy, Sichuan's Demonstration Base for New Industrialization and Sichuan's High-tech Industrial Base for New Materials in Petroleum, Gas and Chemicals. The park has attracted a number of 500 top enterprises such as Wanhua Chemistry, Wintrue Holdings, Beijing Capital and Hong Kong's Yetop Energy Group.

园区发展现状

Development Status Of The Park

- 全球最大的三聚氰胺生产基地
- 全国最大的硝基复合肥
- 全国最大的丙烯酸酯橡胶生产基地
- 全国首条聚芳硫醚砜生产线

It has built the largest melamine production base in the world, the largest nitro compound fertilizer and acrylic rubber production base in China, and the first polyarylene sulfide sulfone production line in China.

园区未来发展方向

Future Development Direction Of The Park

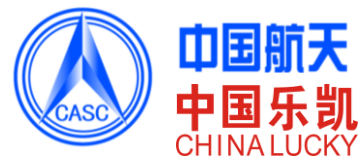

未来，园区将重点围绕**三聚氰胺、
催化剂、特种橡胶、聚
芳硫醚砜**等打造全产业链条。

In the future, the park will focus on melamine, catalysts, special rubber and poly aryl sulfide sulfone (PASS) to create a chain of industries.

园区发展现状

Development Status Of The Park

园区在建项目**37**个

已入驻包括陶氏化学、江阴江化微电子、苏州晶瑞化学、保定乐凯、四川省精细化工研究院等30多家行业顶尖企业。

At present, there are 37 projects in the park under construction, including those of more than 30 top industry players such as Dow Chemical, Jiangyin Jianghua Microelectronics, Suzhou Cristal Clear Chemical Ltd., Baoding Lucky Innovative Materials and Sichuan Institute of Fine Chemical Industry Research and Design.

园区未来发展方向

Future Development Direction Of The Park

未来，园区将重点围绕**新材料产业链**，形成地位体量与先进性兼具的新材料产业增长极，打造西南地区技术领先、产业基础雄厚的新能源产业重镇。

In the future, the park will focus on linking up the industrial chain of new materials, forming a new growth driver with both quantity and quality, and building a new energy powerhouse with advanced technology and solid industrial foundation in southwest China.
