

ALLIANCE TO END PLASTIC WASTE

THE NEXT CHAPTER OF CIRCULARITY: FROM GLOBAL LEARNING TO SYSTEM TRANSFORMATION

17TH CHINA PETROLEUM AND CHEMICAL INTERNATIONAL CONFERENCE

Convening the plastics value chain to advance circularity

ALLIANCE TO END PLASTIC WASTE

© Alliance to End Plastic Waste

China has set out a clear ambition to advance circularity

ALLIANCE TO END PLASTIC WASTE

15th Five-Year Plan

Action Plan for Promoting the Application of Recycled Materials

Target

19.5 **million tonnes of recycled plastics annually by 2030**

Addressing different elements of circularity

Increasing demand for recycled materials

© Alliance to End Plastic Waste

ALLIANCE TO END PLASTIC WASTE

STRATEGY 2030

Tackling systemic barriers to circularity

COUNTRY PROGRAM

THEMATIC PROGRAM

© Alliance to End Plastic Waste

COUNTRY PROGRAM
Malang Regency, Indonesia

IMPROVED WASTE SEPARATION

ADDED COLLECTION VEHICLES AND BINS

MINI MRF EXPANDED SORTING CAPABILITIES

RECYCLABLE MATERIALS SOLD TO LOCAL RECYLERS

© Alliance to End Plastic Waste

THEMATIC PROGRAM
Films and Flexible Plastics

ALLIANCE TO END PLASTIC WASTE

Build solutions around viable markets

 Identify potential applications >  Understand buyers' quality requirements >  Assess demand

Address gaps in **collection**, **sorting** and **recycling** to produce materials that meet market requirements

UNLOCKING CAPITAL
to scale what works

ALLIANCE TO END PLASTIC WASTE

The Alliance de-risk projects and lower capital costs by:

- Co-designing financing mechanisms
- Providing technical expertise, concessional capital, and grant funding

© Alliance to End Plastic Waste

Advancing plastics circularity is a monumental but solvable challenge.

Working across the value chain, we can develop, prove, and scale practical solutions.

Join us and turn opportunities into action.
